

MINDHIVE MEETING (120626)

Set up

- Need new number
(phone for data - MK to send
- Maya users- unlimited
- Need a chatgpt acc - subscription plan (API KEY)

Question

- How's the Accuracy
- Do only for Sujaya first
- TPP coming soon
- Adjust prices in inventory - only for discount
- Can Maya help to pull out invoice and send to whatsapp group - kenot
- To integrate SG - need to pay extra

MAIA track inventory SQL

- From SG - pull date - latest /OOS
- Can MAIA absorb - data tracking ?

Backend

- Amirah can oversee outstanding

Solution

- Inventory in the morning
- And latest inventory EOD ?

Pack List

- Amirah to receive email

When can we sync?

- After Amirah click completed when pick & pack is done
- After invoice is submitted - all inventory is synced

Pre Orders

- Separate invoice
- X sync

Invoice Follow up

- Can partners prompt maya to send a summary for the clients?

Flow 1

Prompt maya

sales order

Pick & pack list

(Amirah to amend sales order again if got differences or mark as complete)

Invoice generated

MK to send to client

Arina to notify and sync inventory

DO

Flow 2 - Default**Order Processing Workflow**

1. Client submits order request to MK.
2. MK forwards the order details to Amirah.
3. Amirah inputs the order into Prompt Maya.
4. Prompt Maya generates the Sales Order (SO).
5. Amirah reviews and amends the Sales Order if required.
6. Amirah creates a Draft Invoice.
7. Jen opens the backend system to verify the order details.
8. Jen generates the final Invoice and sends it to MK.
9. MK sends the Invoice to the client.
10. Arina updates and syncs the inventory in SG.
11. Amirah generates the Delivery Order (DO) and prepares the order for packing.
12. Once the DO is signed by the client, notify Maya and update the order status as completed.
